

Honeycomb Paper Making Machine

Easy to Use

Our honeycomb paper making machines are scientifically designed, featuring easy operation, stable operation and low maintenance.

Working Principle

Put the rolled kraft paper on the unwinder of honeycomb paper making machine, pass through the cutting roller, then the rewinding is honeycomb wrapping paper roll.

Improve Your Production Efficiency

The honeycomb paper roll making machine is an automatic machine, it can produce honeycomb packaging paper and cut the honeycomb wrap any length you set automatically.

Save Space and Cost

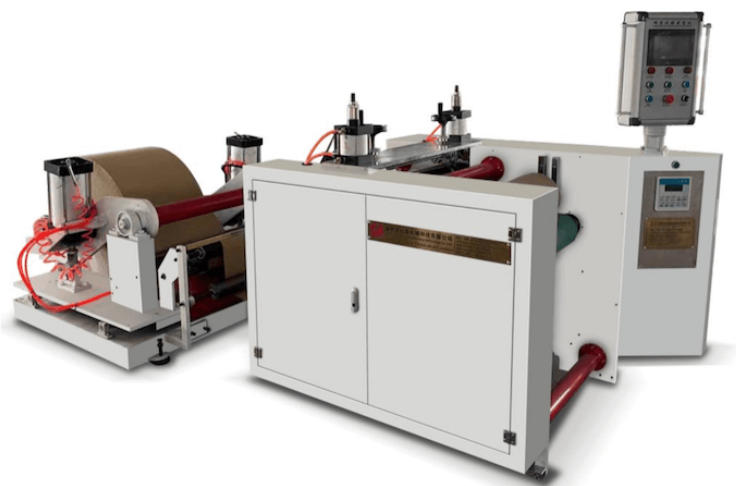

The output finished honeycomb wrapping paper at the rewinding unit is packed in rolls, it takes less space in warehouse and shipping, will save your storage cost and shipping cost.

CE Approved High Quality

Our honeycomb paper roll making machines have passed CE certification and can be sold in EU and other countries.

Quality Warranty

The machine has 1 year' guarantee since the date of buyer's receipt of the honeycomb paper making machine.

Honeycomb Paper Making Machine
Model No.: #A520, #A700

Output Finished Product:
Honeycomb Wrapping Paper

High-strength, eco-friendly Honeycomb Wrapping Paper provide worry-free protection for your products.

Honeycomb wrapping paper is a 100% recyclable and biodegradable new protective packaging material. The raw material of the honeycomb packaging paper is high strength kraft paper, gram weight is 80gsm high quality class.

Honeycomb paper wrap is a honeycomb structure design, which is stronger after stretching, stretching ratio 1:1.6, which can perfectly protect your products from damage during transportation.

The Eco friendly and FSC approved good and stable honeycomb packaging is a better alternative to traditional plastic bubble wrap.

Honeycomb wrap can be naturally degraded after 120 days in the underground environment.

Honeycomb packing paper will help you save storage cost of 80%, shipping cost, and increase your packaging speed, and improve your packaging efficiency up to 50%~70%.

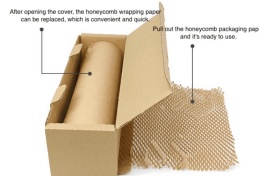

Features and advantages

- Eco friendly honeycomb packaging
- Kraft paper 100% biodegradable, recyclable and reusable
- Better cushion, honeycomb structure is excellent in shockproof and scratch proof
- High stretching ratio: 1:1.6
- Easy to use
- Cost effective alternative to traditional shipping materials
- Light weight, save space and shipping cost

Honeycomb Packing Paper

- Mainly used for protective packaging and decorative packaging, greatly improve packaging efficiency
- Rolled paper bubble wrap will save space and shipping cost
- Easy to tear and wrap products in any shapes

Honeycomb Paper Machine

With core patented technologies, we provide a stable and reliable paper bubble wrap machine.

Features and advantages

- **Manual and automatic 2 options**

We supply 2 kinds of honeycomb paper making machine for your choice, one is by manual, another one is by automatically.

- **Easy to use and maintain**

All honeycomb paper machines are easy to use by manual, or by automatically.

- **Multi-specification support**

Suitable for honeycomb packing paper in different size and colors.

- **Improve packaging efficiency**

You will improve packaging efficiency up to 70% by using our paper bubble wrap machines.

- **High Quality**

High and stable quality and 1 year quality warranty

Applications

- Third party logistics packaging
- E-commerce packaging
- Cosmetics packaging
- Auto parts distribution
- Toys and crafts
- Electronic product packaging
- Food or fruit box filling
- Drug packaging

Manual Honeycomb Paper Machine

The most popular manual honeycomb paper machine is compact, portable, and very easy to operate, efficient and trouble-free production of honeycomb wrapping paper, recommended for e-commerce and logistics service providers...

#HP50-02

Auto Paper Bubble Wrap Machine

The latest fully automatic paper bubble wrap machine makes paper bubble wrap 21 meters per minute, can greatly improve your packaging efficiency, suitable to 2-layers honeycomb packing paper (outer layer is honeycomb kraft paper, inner layer is white pad paper).

Quality Warranty

- 1 year

We committed to innovative research on protective packaging equipment, materials and services, with rich practical experience and industry-leading research results, several patents, providing customers with comprehensive services.

Honeycomb paper making machine, honeycomb wrapping paper and honeycomb paper machine as our feature products, we always provide our customers with the best overall value solution.
